Hello,

im a longtime User of Spectrafoo, and never had Problems with Updates. Now i Updatet my Mac to OSX 10,7, and when i tried to start Spectrafoo, it tells me that it is not licensed to run Spectrafoo. What went wrong ????

This is due to a permissions issue in Lion.

Please open a support ticket at <http://mhsecure.com/support/>, they will be able to provide you with instructions to get 'Foo running again. We apologize for the inconvenience.
