An updated driver to fix audio issues with all MH interfaces on Mac OS 10.8 is now available for download at http://metric-halo.com/MIO/MIODriver_5.4d219_Universal.pkg.z ip or from our Downloads page. This is a critical update for any user running Metric Halo interfaces on Mountain Lion 10.8.0 or newer. This driver is fully compatible with older systems as well, but updating pre-10.8 machines is not necessary.
