An updated driver to fix audio issues with all MH interfaces on Mac OS 10.8 is now available for download at http://metric-halo.com/MIO/MIODriver_5.4d221_Universal.pkg.z ip or from our Downloads page. This is a critical update for any user running Metric Halo interfaces on Mountain Lion 10.8.0 or newer, and also fixes issues on older versions of the OS. This update is recommended for ALL Metric Halo hardware users.
