
Subject: ULN-2 3D No sound but Signal showing.

I just finished installing the 3D upgrade on my ULN-2 but I cannot get audio to come out the monitors. I can see the signal on the MIOconsole3D, but even when I go to Sound preferences (running an iMac 27" with Big Sur) I used to get "Metric Halo ULN-2" as the interface, now I just see "Output USB".

Any ideas how to get this sorted? I have connected the ULN-2 via USB into the iMac.

Thank you
