Hello I have one unit without ADAT and have this Problem
Can not Updater the Firmware tried all suggestion in the help section
Error Message
Firmware installed in the Mobile I/O is to old to be used with this MIO Console Update to v1.2.10
Mixer After this Message will not Function anymore I cannot use the device Firmware Status and
Device Status Offline ULN 000XXX

Are you sure you're using the right updater? There's one for 2dcard and one for legacy boxes.

There's one for 2dcard and one for legacy boxes.

Thanx for da tip
Yes absoulte have a good isight :)

I try now with old System 9 files no old G4 Mac
