I have two MIO2882+DSP 2d units for sale. Price is negotiable. All reasonable offers considered and I'm inclined to be more reasonable if you want both. These are both +DSP 2d units in excellent working order, well maintained, regularly serviced and used mainly in a professional non-smoking studio environment. SN 153 and 489. Offering them here before public boards post. Feel free to contact me on or off list if interested. Thanks.
