
Subject: Mio Console Record Panel Crashes

Hello, following frustrating issue, which I need to solve till tomorrow, because I have a recording coming up.

I cannot record anymore. When I'm using the record panel to record some tracks (no matter if i use my two 2882 (both 2d) or just one) mio console crashes. I already deleted the MIOConsole Preferences and the state files as recommended by the support.

Yesterday the issue was just that the audio system sometimes would crash during the day, then I had to reboot my system to make it work again. But generally I could still record all 16 channels. Now recording in studio one just leaves the tracks empty. Help!

I'm on a macbook pro 2014, 16gb ram, 2,8 Ghz i7, OSX Sierra 10.12.1.
mio console is updated to the most recent version.

I don't know if this helps, I analyzed the process in the activity monitor. This is what was displayed:
